

The Baxter Family Postgraduate Scholarship

Residency

Local

Program Level

Postgraduate Research

Value

\$20,000 per annum

Tenure

The value of the scholarship is \$20,000 per annum up to three years. A new scholarship will only be offered when the current recipient has ceased to receive benefits. It is expected the next scholarship will be offered in 2012.

Outline

The Scholarship is established to encourage students of proven high ability and limited financial resources to pursue postgraduate study in engineering, medicine or science, where the research shows promise of advancing Australian technology and industry in the modern world.

Eligibility

To be eligible for a Scholarship, an applicant must be commencing, or proposing to commence a full-time PhD in engineering, medicine or science. Applicants must be Australian citizens or permanent residents. Applicants must apply for an APA/UPA.

How to Apply

It is expected this scholarship will next be awarded in 2012. Appropriate candidates will be short-listed from the APA/UPA applications and invited to apply for the Baxter Family Scholarship by submitting a statement outlining the program of scholarly undertakings detailing proposed activities and their anticipated benefits to Australian technology and industry.
